

Jill Gardner's artwork is post-modern and feminine in its intuitive approach. It incorporates delicate handcrafted elements with a Fine Arts sensibility. It is imbued with meaning in the very making of it. From sumi-e brush painting to mixed media collage and sculpture, Jill's work spans a wide array of materials but is held together by its simple, tactile beauty. In her written work; poetry, prose and essay, Jill's voice is accessible, funny and full of everyday wisdom.

## poetry & prose...

### Revelations

Sometimes when I write things down  
poetry and genius are  
what I find there.

I wonder, should I capitalize on these revelations?  
And off I go, exploring marketing  
and action plans.

But poetry is in the writing of it.  
And genius...has some strange companions.  
I'm not sure I've been eating well.
